Joanna house plan is a large, comfortable one-story house with an attic with the vast and expanded block. It is an offer for customers who like hipped roofs and large dormer windows. The main body is connected by a link with the body of the garage. The house plan features a traditional, conservative architecture - with a modern elements. The interior of the house: on the ground floor there is a one space of living area, a living room with dining room, large kitchen, hall connecting part of the garage (storage room) and the rest of the ground floor rooms. In this house plan, on the attic there are three bedrooms, two bathrooms, a sports room and an attic above the garage, which can be adapted as a home theater room or sports room
