	Septic tanks sealed package	bezpł.

Mazurka house plan 3 is a variant version of the project Mazurek 2. The building is designed for family of 4 to 5 people. House, in relation to his original was increased by the boiler room behind the garage, so you can think not only about gas heating, but also about the solid fuel boiler. The existing boiler room serves as a utility room. At the bottom besides the living room there are two additional bedrooms. There is the possibility of adapting the attic above the garage for an extra third bedroom. Mazurka 3 house plan is also available in mirror version.
