	Boiler for solid fuel package	80
	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

Flea house plan is one of the newer house plans. This house is designed for four to five people. It can be used as single-family house all year round or as a holiday house. The simple shape of the building is designed on a square plan and covered with a gable roof. The facades were decorated with pretty eaves, small roofs entrance and garden. The project has a diverse facade - designed as plastered floor, attic - clad by wood cladding. House is very neat, has a well-balanced proportions and scale. Due to the clear layout design house construction should be easy and inexpensive. Inside the house, on the ground floor was planned living-dining room with kitchen, utility room, bathroom and room - master bedroom. In the attic was planned two children bedrooms and a bathroom. Flea is designed to be able to finish the attic in the second stage. There is also available a mirror version of this house plan.
