**CENA PROJEKTU: 760.00 \$**

Cheerful wooden house plan is a small and economical house with wooden logs. Storied, without basement, with a simple and balanced block for a family of four. It can be treated as a single-family house or as a whole year house. The building has a clear and functional floor plan and clear their splitting to day and night sections, which gives a sense of comfort and convenience. Large covered terrace provides the opportunity to use an external fireplace (grill), regardless of weather conditions. Fireplace, located in the living room allows heat distribution throughout the house. Cheerful Wooden house plan is available in the technology of wood and brick. There is also a variant version with the attic. Each of variant version are available also in a mirror version. A set of four copies includes: design house architecture, construction and interior installation diagrams. At the request of the investor, we enclose to the house plan agreement to make changes according to customer's request.
