Ray house plan is a single-family house for a family of 4-5 people, which could serve as a year-round house as well as a holiday house. There is also a variant version of a brick and a wooden frame. Ray house is very simple and functional. A rectangular block was covered by a gable roof. Despite the ascetic form, house it looks very attractively. Solid has the right proportions, and the interior is functionally resolved. Besides the salon jointed with kitchen and a hall there are also three bedrooms and a bathroom - separated by the hall from the living area, and a garage with utility room - boiler room. House can be heated with natural gas, as well as solid fuel. There is also available mirror version of this house plan.
