	Septic tanks sealed package	bezpł.

Primus house plan is designed for a family of four-five people. This is a one-storey detached house with attic. The main body of the building, along with an added part of the garage has been covered by a hipped roof. The facades are decorated with three roof dormer windows, a corner entrance arcade supported by column, the dining room bay window and a large balcony of parents' bedroom in the attic, supported by two pillars and at the same time being a part of the roof garden terrace. Quiet, toned architecture of the house adapts to any environment, and the right proportions and elegant detail will fully enjoy this interesting house plan.. The interior of the house was subordinated to the functional layout of the rooms and the simple arrangement of the design of the building. On the ground floor there is a single daily space with a living room, dining room, foyer and partially open kitchen. The exposed representative stairs are also a decoration of the ground floor. In addition, on the ground floor provides room which could be used as office or extra bedroom, and the technical part - with a garage and boiler room. In the attic of Primus house are designed three spacious, separated bedrooms with wardrobes and a large bathroom. There is also available a mirror version of this house plan.
