	Fencing projects	140
	Septic tanks sealed package	bezpł.

Pooh house plan is a detached house with usable attic for a family of 4-5 people. House with garage extended in front by the front wall of the building fits perfectly to a narrow plot of land or plot on a busy street, where the investor wants to acoustically and visually separate themselves from the road. Pooh house plan, although it is little has on the ground floor a spacious living room with fireplace, with dining area, open to the kitchen and hall, with visible staircase. In the attic there are three bedrooms and a bathroom. The house is simple in the structure and easy in construction. Sympathetic, graceful appearance goes hand in hand with a comfortable and functional interior. There is also available mirror version of this house plan.
