Joyful with garage house plan is a variant version the house Joyful. This house is a proposal for family of 4-5 people. The building is a small, simple in the construction, the same time very functional and full of charm. The interior has been very clearly divided - on the ground floor on one side of the entrance a salon - on the second side kitchen with dining area, or possibly an additional room. The center of plan are the communication, boiler room and toilet. In this project Joyful with a garage, in the attic there are three bedrooms and a bathroom. From the living room by on the ground floor there is a large roofed terrace and at the top - a balcony. There is also available mirror version of this house plan.
