Pine house plan 4, this is a variant version of the house Pine. The building may serve as a year-round or holiday house. The house was designed in the construction of a wooden frame. Its simple shape provides a fast and economical construction. House consists of a daily space on the ground floor with kitchen, bathroom, entrance porch and utility room. And a night space on the attic where you can find two bedrooms. Fireplace and wooden staircase in the living room are a decorative element of the interior. Covered terrace and balcony supported by pillars will certainly perfect place to relax. There is also available a mirror version of this house plan.
