Daisy house plan is a charming building with, clear simple block. This detached house designed for a family of four-five people. Daisy house is built on a rectangular plan. Ground floor plan and attic is crowned with a hipped roof with dormer windows set symmetrically from the front and from the garden. The front dormer is connected to the arcade entrance on small columns. From the garden was designed partial roofed terrace, large balcony. The charm of the house is its simplicity and proper proportions, to the interesting details, and functionally designed, thoughtful interior. On the ground floor was designed spacious living room with a centrally located fireplace and large glazed to the terrace and garden. Living room is connected partly through this half open kitchen with dining area with bay window. Very nice lobby with representational staircase to the attic completes the interior plan. In addition, the project provides even part of the utility with a garage and boiler room. In the attic there are three bedrooms with walk-in closets or wardrobes built, a bathroom and an additional room - study or fourth bedroom. There is also available mirror version of this house plan.
