Artemis house plan is a small, storey house for a family of 3 - 4 people, with a compact, simple in building shape and modern architecture. Artemis house is designed in a square and covered by a hipped, envelope roof. Slightly protruding garage with the entrance arcade roof over the terrace garden, wall Elevation around the windows - all these elements diversified the silhouette giving it an attractive appearance. The interior of Artemis house is divided into living and utility part on the ground floor, and bedrooms on the upper floor. Living room was combined with a dining, hall, the prominence stairs and open kitchen creating a living space. In the Artemis house plan the garage is available from the atrium and together with a large boiler room create the utility part. Three comfortable bedrooms upstairs with wardrobe, the master bedroom, and a bathroom with laundry facilities creates the night part of the house. The house although the small size, includes all the necessary facilities. The rooms are spacious, and thanks the top floor there are no levels. Above the top floor there is an attic possible to adaptations. There is also a mirror version of this house plan.
