	Septic tanks sealed package	bezpł.

Cypisek house plan is a proposal for the small family of 3 - 4 people. Cypisek is a house with a rectangular shape, covered by a gable, symmetrical roof. Simple body of the house was decorated with interesting details, such as a roofed kitchen bay window, corner arcade entrance of the column, corner bedroom window, or arcade garden on a terrace. Chosen with taste, modern materials and colors in combination with the traditional body of this building give a unique effect. The interior of the house hides three bedroom, comfortable apartment, with an additional entrance porch and a boiler room. In the living room there is a corner fireplace visible from anywhere in the living area and large glass doors opening the house to the terrace and garden. The attic above the ground floor can be quite easy adapt to usable attic. There is also a mirror version of Cypisek.
