Dominik 2 house plan is a variant version of Dominik house, with an additional garage and a utility room. This is ideal house for a family of 4 - 5 people. Besides to the three bedrooms on the ground floor there are two additional rooms in the attic. The attic can be adapted in the second stage, after residing on the ground floor. Utility room next to the entrance serves as a boiler room - or you can move the stove into the room behind the garage. There is also a mirror version of this house plan.
