	Fencing projects	140
	Septic tanks sealed package	bezpł.

Sophie 3 is the next version of the popular project from the series of Sophie. This time we present you a bungalow with usable attic for utility purposes. Thanks functional arrangement of rooms in a small area of one hundred square meters we able to accommodate up to six rooms - living room, three rooms on the ground floor and two additional bedrooms in the attic. House is ideal for a large family wanting to to little cost build its headquarters. This house is also the perfect choice for those who need of extra - outside bedrooms - room (for example, to work). Sophia 3 is also a great proposition for summer house - thanks to the large number of rooms can accommodate many guests. The building has a simple, uncomplicated to build solid and construction. It is inexpensive in building and later use. Thanks to good isolation and compact body heating costs will be small. Exterior architecture is a graceful unassuming solid in the human scale, with gently sloping down tracts of roofs.
