	Boiler for solid fuel package	80
	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

Cassiopeia 6 house plan is a variant version of the popular basic Cassiopeia. The house has been greatly enlarged and became comfortable storey villa with double garage and six rooms. Storey elongated core of the house covered by a hipped roof and is surrounded by a outhouses. The entire body has a nice shape, enriched with large glass panels, wall claddings, bay windows and arcades. The interior of the building is divided into daily part on the ground floor and bedrooms upstairs. The ground floor is mainly combined of living room, dining room and hall. Exposed representative stairs, fireplace, corner balcony window to the terrace and the arcade - these elements raising the attractiveness of the interior. Large kitchen with an additional place for breakfast and pantry is partially open to the dining room and lounge. On the ground floor there are also space for an extra room-office, or guest bedroom and a garage for two cars and a boiler room and really big atrium. On the first floor there are four rooms, including parents' bedroom with separate bathroom and dressing room, large bathroom and laundry room. In addition, there are attics - over the floor, and over the garage and boiler room. Cassiopeia 6 is a comfortable vila - includes all the rooms you would only require from such large comfortable house. House is also energy efficient. House is energy efficient - has a very good insulation and new technology, which reduces the cost of maintaining house. This project is available in the mirror version and several other versions: the base (Cassiopeia), in the twinned (Cassiopeia 2) version of the area. 172.7 m² (Cassiopeia 3) cheaper in the implementation version (Cassiopeia 4), in comfortable version (Cassiopeia 5).
