Booby house plan is a one-storey house from wooden bales, which could serve as a year-round home for a family of 4 - 5 people as well as a summer house. The construction of the house was on the inside insulated with mineral wool, so the building meets all the heat standards. The house itself, besides to a living room with fireplace and three bedrooms with bathroom has a large covered terrace, which can be partly glazed. In the utility room heating boiler was designed. Dudek house plan is also available in a mirror version.
