	Boiler for solid fuel package	80
	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

On your own house plan is a nice detached house for a family of 4-5 people. House has a compact simple form and it is built on a rectangular plan. Attic is covered by a gable, symmetrical roof. The architecture of the house is toned, modern but unpretentious. Used modern materials, colors, arrangement of windows, cladding wall emphasize contemporary style of house. At the same time gabled roof settles the body in traditional aesthetics. House perfectly fit in any surroundings and is suitable for a very narrow plot with a width of just over 16 meters. You rarely find house that will fit on such a narrow lot. The interior of house are: on the ground floor - daily part with living room and open kitchen, garage, boiler room with a separate entrance, bathroom and a very practical staircase located near the entrance. In the attic, there, are three bedrooms with a bathroom. Thanks to its compact body and a very good isolation of partitions, the house is energy efficient. Compact shape and simple design of the building will allow for a quick and inexpensive construction, and subsequent economical exploitations of the building. The surface of house allows to qualify the project MDM program requirements.
