	Septic tanks sealed package	bezpł.

Villa Florida is a luxurious residence for family of 4 people. Very comfortable, convenient storey villa designed for suburban nice plot. Architecture of house combines modern form and functionality solutions. External appearance and comprehensive interior underline the representational status and good taste owners. Front of house has been decorated with a two-storey stone wall. Wide entrance door leads through covered platform directly to a glazed atrium lobby and a living room with a beautiful high window facing the garden. In the front elevation cleverly was hidden door into the big garage garden elevation has a large glazed elevation has been divided into horizontal stripes. There are balconies and terraces, everything open the interior of the house to the surrounding garden. On the ground floor is a beautiful representative living space consisting of hall, living room, dining room, beautiful staircase, and large kitchen. On the ground floor there are also additional technical rooms, triple garage and office. On the first floor there are four beautiful bedrooms with walk-in closets and bathrooms, and a mezzanine connecting living room with first floor and a recreation room with a terrace. This is undoubtedly large house and was designed functionally with great respect for the space. The idea was to obtain good effect on a small area. Villa is certainly a proposition for people wealthy, but at the same time not looking for cheap and flashy elegance.
