	Air conditioning package	80
	Fencing projects	140
	Septic tanks sealed package	bezpł.

Elizabeth is a house for the family of 4 -5 people. Elizabeth is a storey house with usable attic, with a built-in garage for one car. The house has a shape of the letter "L" and is covered by a symmetrical gable roofs. Body of the building creates an intimate terrace corner from the garden side which is partly covered. The traditional form of home combined with frugal, contemporary details form consistent, very proportional external elevations. The arcade of the front door, the balconies and dormers diversified the body of the building. Large windows to the terrace provide good lighting and contact of the inside of the house and the garden. On the ground floor there is a daily space, with a separate living room, dining room, lounge and partially closed kitchen. There is also a place for the garage and boiler room. In the attic there are three large bedrooms with dressing-room, and a spacious bathroom. There is also a mirror version of this house plan.
