Like a dream 3 house plan is a convenient, extensive bungalow for a family of 4 - 5 people. This is a family house plan with traditional architecture referring to the manor house. The layout of rooms on the ground floor is separated on the two parts: living and intimate - night. It is possible enlarging the interior by partial adaptation of an attic. Large living room with access to the covered terrace and a dining room with a bay window give a sense of spaciousness. The house can be built on a plot with unfavorable setup to the sides of the world or on a narrow plot with a garden on the side of the house. This house plan is also available in mirror version
