Dachshund 2 house plan is a convenient building on a very narrow plot - even a 15-meter. The solid of the house and a garage is covered by the hipped roof. A garage has been added to the house. The interior of the house is planned is such way to be able to live on the ground floor in the first stage of building. Attic, which provides additional rooms can be exploited already living or leave the attic unfinished. The attic can be exploited for utility rooms. Interior of living room, dining room and lobby creates a large open space. From the living room you can go out to the covered terrace. This house plan is also available in mirror version.
